**Calculators – Minimum Requirements by class**

- All Science classes (grades 8-12) and all Math classes from Pre-Algebra through Geometry:

**Scientific Calculator** (i.e., capable of scientific notation, exponents, roots, logs, and trig functions)

*\*Note: Phones and iPods are not acceptable substitutes for a dedicated calculator.*

- Algebra 2, Pre-Calculus, and AP Statistics:

Graphing calculators are required for these courses. The **TI-83 plus, TI-84 plus, and TI-89** (titanium or otherwise) will be fully supported. However, the **TI-89** is strongly recommended as it provides a number of very useful features that the other models don't and it can thus provide students an edge in Algebra 2 and Calculus courses. All of these calculators are allowed for use on the College Board AP exams.
